**Gambaran Faktor Pendukung Implementasi Posyandu Pada Masa Pandemi Covid-19 Di Desa Caringin
xvi + 66 halaman + 2 tabel + 18 gambar +15 lampiran**

ABSTRAK

Latar Belakang : Presiden Republik Indonesia Joko Widodo menyatakan pelayanan kesehatan ibu dan anak di puskesmas maupun posyandu jangan sampai terhenti. Tetap mematuhi protokol pencegahan *Covid-19*, karena pelayanan kesehatan ibu dan anak harus tetap di berikan.

Tujuan : Penelitian ini bertujuan untuk menggambarkan tentang faktor pendukung implementasi posyandu pada masa pandemi *Covid-19* di desa Caringin, dan khususnya untuk mengetahui gambaran implementasi ketersediaan sumber daya, komunikasi antar organisasi, dan sikap para pelaksana di posyandu desa Caringin pada masa pandemi *Covid-19*.

Metode : Penelitian ini menggunakan metode deskriptif dengan pendekatan kualitatif. Penentuan responden menggunakan *Purposive Sampling* yaitu cara pengambilan sample berdasarkan pada pertimbangan atau tujuan tertentu, serta ciri-ciri atau sifat-sifat tertentu yang sudah diketahui sebelumnya. Responden atau informan dalam penelitian ini berjumlah 20 responden atau informan. Teknik pengumpulan data menggunakan teknik wawancara mendalam (*In-depth interviews*) dan studi dokumentasi.

Hasil : Hasil penelitian ini menggunakan teori implementasi Van Metter & Van Horn, Menggambarkan dari 3 variabel (sumber daya, komunikasi antar organisasi, dan sikap para pelaksana) sebagai faktor pendukung keberhasilan Implementasi kebijakan dalam penelitian ini menunjukan bahwa Pelaksanaan /Implementasi Posyandu pada masa pandemi *Covid-19* berjalan dengan optimal karena sumber daya cukup mendukung, komunikasi antar organisasi berjalan dengan baik dan sikap para pelaksana tidak ada penolakan dalam kebijakan ini.

Saran : Saran bagi pelaksana posyandu tetap mempertahankan komitmen menjadi contoh yang baik kepada masyarakat mematuhi protokol kesehatan, dan komitmen untuk mengajak/mensosialisasikan protokol kesehatan kepada masyarakat dalam pelaksanaan posyandu pada masa pandemi *Covid-19* sehingga pelayanan tetap berjalan dengan baik dan aman.

**Description supporting factors for the implementation of posyandu during the Covid-19 pandemic in Caringin village
xvi + 66 pages + 2 tables + 8 pictures + 15 attachments**

ABSTRACT

Background : President of the Republic Indonesia Joko Widodo stated that maternal and child health services at the puskesmas and posyandu should not be stopped. Continue to comply with the Covid-19 prevention protocol, because maternal and child health services must be provided.

Objective : This study aims to describe the supporting factors for implementing posyandu during the Covid-19 pandemic in Caringin village, and in particular to find out the description of the implementation of resource availability, communication between organizations and the attitudes of the implementers at Caringin village posyandu during the Covid-19 pandemic.

Method : This study uses a descriptive method with a qualitative approach. Determination of respondents using purposive sampling, which is a sampling method based on certain characteristics or traits that have been previously known. Respondents or informants in this study amounted to 20 respondents or informants. Data collection techniques using in-depth interviews and documentation studies.

Results : The results of this study use the Van Metter & Van Horn implementation theory, describing 3 variables (resources, communication between organizations, and the attitudes of the implementers) as supporting factors for the success of policy implementation in this study shows that the implementation/implementation of Posyandu during the Covid-19 pandemic running optimally because the resources are sufficiently supportive, communication between organizations is running well and the attitude of the implementers is not rejected in this policy.

Sugestion : Suggestions for posyandu implementers to maintain a commitment to being a good example to the community to comply with health protocols, and a commitment to invite/disseminate health protocols to the public in implementing posyandu during the Covid-19 pandemic so that services continue to run well and safely.
