**HUBUNGAN STATUS PEKERJAAN LANSIA DENGAN KUALITAS HIDUP
LANSIA DI DESA GILING KECAMATAN GUNUNGWUNGKAL KABUPATEN
PATI**

ABSTRAK

Latar Belakang : Hasil Survei Angkatan Kerja Nasional (Sakernas) tahun 2011, hampir separuh (45,41%) lansia di Indonesia memiliki kegiatan utama bekerja. Data bulan Desember 2021 di Posyandu Lansia Bergas Waras Desa Giling, jumlah lansia yang termasuk di wilayah Posyandu lansia Bergas Waras sebanyak 209 lansia dari 7 Rukun Warga (RW). Dari keseluruhan jumlah lansia yang terdaftar, sebanyak 167 lansia masih bekerja dengan berbagai profesi. Dengan banyaknya lansia yang masih bekerja menunjukkan kondisi fisik lansia masih mampu untuk bekerja tetapi disisi lain kesejahteraan lansia masih kurang karena masih harus bekerja di usia lansia.

Tujuan Penelitian : Mengetahui Hubungan Status Pekerjaan Lansia dengan Kualitas Hidup Lansia di Desa Giling Kecamatan Gunungwungkal Kabupaten Pati

Metode : Populasi dalam penelitian ini sebesar 209 responden, teknik pengambilan sampel adalah *Purposive Sampling*, sampel sejumlah 68 responden, alat pengumpulan data menggunakan kuesioner WHOQoL-BREF, uji analisis dengan uji Chi Square dengan nilai $p < \alpha (0,05)$.

Hasil : Didapatkan hasil sebagian responden bekerja sebanyak 39 (57%), dan sebagian besar mempunyai kualitas hidup sedang sebanyak 50 (73%) dan kualitas hidup tinggi sebanyak 12 (18%) dengan hasil nilai $p\text{-value}=0,007 < \alpha (0,05)$ maka H_a diterima, artinya ada hubungan yang signifikan antara status pekerjaan lansia dengan kualitas hidup lansia.

Simpulan : Oleh karena nilai $p\text{-value}=0,007 < \alpha (0,05)$ maka H_a diterima, artinya ada hubungan yang signifikan antara status pekerjaan lansia dengan kualitas hidup lansia. Dapat disimpulkan ada hubungan status pekerjaan lansia dengan kualitas hidup lansia di Desa Giling Kecamatan Gunungwungkal Kabupaten Pati Tahun 2021.

Kata Kunci : Status Pekerjaan, Kualitas Hidup, Lansia.

**THE RELATIONSHIP OF THE EMPLOYMENT STATUS OF THE ELDERLY
WITH THE QUALITY OF LIFE OF THE ELDERLY IN GILING VILLAGE,
GUNUNGWUNGKAL DISTRICT, PATI REGENCY**

ABSTRACT

Background: The results of the National Labor Force Survey (Sakernas) in 2011, almost half (45.41%) of the elderly in Indonesia have the main activity of working. Data for December 2021 at the Bergas Waras Elderly Posyandu in Giling Village, the number of elderly belonging to the Bergas Waras Elderly Posyandu area is 209 elderly from 7 Rukun Warga (RW). Of the total registered elderly, 167 elderly are still working in various professions. With the large number of elderly who are still working, it shows that the physical condition of the elderly is still able to work but on the other hand the welfare of the elderly is still lacking because they still have to work at an elderly age.

Research Objectives: To determine the relationship between the work status of the elderly and the quality of life of the elderly in Giling Village, Gunungwungkal District, Pati Regency

Methods: The population in this study was 209 respondents, the sampling technique was purposive sampling, the sample was 68 respondents, the data collection tool used the WHOQoL-BREF questionnaire, the analysis test was Chi Square test with $p < \alpha$ (0.05).

Results: The results showed that some of the respondents worked as many as 39 (57%), and most of them had a moderate quality of life as many as 50 (73%) and a high quality of life as many as 12 (18%) with the result $p\text{-value} = 0.007 < \alpha$ (0, 05) then H_a is accepted, meaning that there is a significant relationship between the work status of the elderly and the quality of life of the elderly.

Conclusion: Because the $p\text{-value} = 0.007 < \alpha$ (0.05) then H_a is accepted, meaning that there is a significant relationship between the work status of the elderly and the quality of life of the elderly. It can be concluded that there is a relationship between the work status of the elderly and the quality of life of the elderly in Giling Village, Gunungwungkal District, Pati Regency in 2021.

Keywords: Employment Status, Quality of Life, Elderly.
